Social Skills/Video Modeling Apps		
	Pictello (\$14.99)	Ability to create, edit, and share social stories. Includes the ability to use text-to-speech or recorded audio
	All About You. All About Me (\$5.99)	This social skills App for the iPhone®, iPad®, and iPod touch® has all 56 illustrated picture cards (plus audio of each card text) from the <i>All About You, All About Me Fun Deck®</i> by Super Duper® Publications. Select the cards you want students to see, and have them ask and answer essential questions about getting to know someone. The prompts include basic questions like, "What is your name?" and "What is your home address?" as well as open-ended questions and prompts like, "Tell me about your friends." This App is simple to use — each student looks at an illustration, and either reads the prompt or touches the screen to listen to the prompt. The student then gives a verbal response. After each answer, tap the green (correct) or red (incorrect) button to score the student's verbal response. Move to the next card by sliding the card currently on the display screen to the side, and the next image appears. Move to the next player by sliding the bar at the top of the screen. When you finish, view the results, and email them to as many addresses as you like.

	Stories2Learn \$13.99	Create personalized stories using photos, text, and audio messages.
	ABC Tracer: (\$1.99)	ABC Tracer is a handwriting app that animates and shows how to draw the alphabet with strokes in the correct order. When tracing with your finger, the correct tracing is highlighted in green and wrong tracing (deviating too much from the line or wrong order) is highlighted in red. The tracing is accompanied by fun audio and touching the images below makes corresponding noises. Also provided practice in writing numbers and words.
	Little Finders Free	Provides a one or more player game to visually search for objects. It provides audio and visual matching supports making it more accessible for emergent readers to independently play.
